

## How to add funds / buy stake

---

in order to add funds to your stake please transfer the respective USD amount in either **BUSD** or **USDC** stablecoins to the following **BSC (Binance Smart Chain)** addresses:

BUSD: 0x613B4c9d8F7B62a0326D14C0e76dC06E22Bd8Cf4

USDC: 0x613B4c9d8F7B62a0326D14C0e76dC06E22Bd8Cf4

BUSD and USDC are both stablecoins and pegged to the US dollar. For example, if you wish to add 100 USD to your stake you can deposit either 100 BUSD or 100 USDC.

Deposits in other cryptocurrencies such as BTC or BNB are available **only on request**.

Once you have made your deposit, please fill the form on the “**Buy Stake**” page in your back office. You can access this page via the “stake” section in the navigation menu. Enter all relevant details including your **transaction hash (TxID)**.

Once we have received your deposit, your funds will be added to your pending stake **manually within 48 hours**. They will then be added to your active stake with the next calculation run.

**NB:** Payments **must** be made in the **Binance Smart Chain (BSC) network**.

If you deposit to an incorrect network or transfer your digital assets to an incorrect wallet address we will **not** be responsible for any loss.
